PRODUCT LEAFLET

VideoWall 46-55 inch 4x4

082.5044.03 VideoWall 55 inch 4x4 - Truss (column construction)

Like the previous VideoWall the new VideoWall solution is compact to transport, lightweight and it can be configured forany monitor. New to this sophisticated solution is the installation flexibility: the VideoWall is made for floor-, wall- and truss installation. SmartMetals ensured that the solution remained easy to level. Furthermore the bracket frame has been redesigned: through special draw latches the monitors are attached to the frame and each other. The new brackets offer a horizontal and vertical fine adjustment for the monitors and they provide the possibility to change between a portrait and landscape screen position. These innovations result in an impressive VideoWall which is now even easier and more precise to install then before.

PRODUCT LEAFLET

VideoWall 46-55 inch 4x4
